

Winners Announced in 2014 Finance Awards

12 December 2014

United Kingdom – The complete list of winners in the Wealth & Finance International magazine Finance Awards 2014 has now been announced.

The 2014 Finance Awards were developed to recognise and reward excellence, best practice and innovation in finance, open to individuals and firms operating and working in a wide range of industries, including personal finance, corporate finance, accountancy and financial management.

Wealth & Finance has welcomed nominations for firms throughout the globe, from very small niche practices to large corporations and have ensured that those who do go on to win one of these highly sought-after awards have been selected on merit and are based upon the votes received, the further evidence supplied and based on its own in-house research.

This year's winners have displayed continued excellence across the entire range of financial industries, often in challenging regulatory environments. The awards prove that the financial world is full of professionals who are up to taking on the challenges and capitalising on the opportunities facing them.
